Subject: FPN E19902 Slauson Tanker Fire - Rain in Forecast

Hi Brett,

There is rain in the forecast for Friday and/or Saturday. If this forecast firms up toward the end of the week, then the stormwater controls at the site will need to be revisited to ensure there is no release to the adjacent storm drain.

Please let the team know when you visit the site so we can potentially come out to inspect. I will also inspect the site if it rains to ensure there is not a release to the storm drain.

This underscores the need to move ahead with the soil removal; let me know if there is anything I can do to assist with moving that forward.

Thank you,

Ben Castellana, Ph.D.
